OUR VISION:
FOR ALL
SOUTH AUSTRALIANS
TO HAVE OPPORTUNITIES
TO PARTICIPATE
IN THE COMMUNITY
AND LIVE WITH
DIGNITY AND HOPE.

www.wyatt.org.au

During 2016/2017 Wyatt partnered with the Lions Club of Richmond to fund youth education initiatives in Western Adelaide. The Adelaide Bike Kitchen ran one of the eight inspiring projects funded through this partnership, providing maintenance workshops to Challa Gardens Primary School students who rely on their bikes to travel to and from school.
As a philanthropic organisation we rely on the work of our partners in education, community services and housing to help us advance our vision of seeing all South Australians having the opportunity to live with dignity and hope. Equally, our partners rely on the support and funding of Wyatt to respond to need and create opportunity for those they serve as they pursue this goal we share.

Over the past year we have been privileged to work with more than 80 partner organisations and 123 referrer groups in delivering grants to families and individuals that respond to immediate need and build personal capacity.

COLLABORATION & LEARNING

At Wyatt we aspire to be a learning organisation and this is evidenced by a growing number of projects in which research is incorporated into practice. Key projects include two with the South Australian Health and Medical Research Institute (SAHMRI), the Resilient Futures SA Project, from 2015, and the Aboriginal Diabetes Project, which commenced this year.

Another example is Work Pay. Everyday Money Skills for Young People with Disabilities. Aimed at strengthening financial literacy skills for young people with a disability who are about to enter the workforce, this project has been delivered in partnership with The Bedford Group, Financial Literacy Australia, Flinders University, and The Department of Education and Child Development. Funding has been awarded to make a short film about the project to be featured during Community and Philanthropy Partnerships Week 2017.

PLANNING & FOCUS

Over the course of the year the Board gave particular attention to strategic planning extending to 2020 through a facilitated Board and staff workshop process. This process was helpful in identifying a number of key directions including those related to investment and funds generation, and property divestment.

Following significant deliberation, the Board decided that in order to give full focus to our work as a grant maker we would cease owning affordable retirement housing. In doing so, we were determined to ensure that the sale of our retirement housing assets would not impact the housing security of existing tenants and residents. We were pleased to find the ideal purchaser in The Adelaide Benevolent Society, an organisation with a history and focus on those in need, much like our own.

FINANCE AND GRANTS

Our net assets this year grew to more than $87m, an increase of nearly $11.6m over the previous year. This increase was substantially due to sale proceeds from the retirement housing and good growth in the value of investments. Total grants, including grant management costs, exceeded $3m.

We are committed to building our knowledge base. This is reflected in our external thought leader initiatives in which we partner with others to host key speakers and thinkers in areas pertinent to our work. We are actively involved both locally and nationally with philanthropy Australia.

LIZ WILSON
CHAIRPERSON

COVER IMAGE: Wyatt’s Colin Oliver Scholarship Program provides funding towards a range of music-related expenses and experiences to assist eligible students at four partner schools to fully participate in their Specialist Music Studies from Year 10. Funding was provided to 11 young South Australians through this program during 2016/2017.
The Wyatt Trust has a long history of providing small scholarships to enhance school retention and re-engagement to students at risk of dropping out of education. Partnerships exist with 13 schools in connection with the Bultawilta Program aimed at supporting Indigenous students, and in 22 high schools for students at risk.

“AT THE WYATT TRUST WE ARE PRIVILEGED TO WORK WITH A VAST RANGE OF PARTNER GROUPS FROM THE SOCIAL, GOVERNMENT, EDUCATION AND PHILANTHROPIC SECTORS. AS WE WORK TOGETHER TO IMPROVE OUTCOMES FOR SOUTH AUSTRALIANS IN NEED, OUR IMPACT IS MULTIPLIED. WE COULD NEVER ACHIEVE ALONE WHAT WE ARE ABLE TO ACHIEVE TOGETHER.”

ANDREW DAVIES, CHAIRPERSON, GRANTS COMMITTEE

1,221
SMALL GRANTS

123
SMALL GRANT REFERRERS

The Community Living Project (CLP) supports South Australians with a disability to establish their own business through their Micro-Enterprise Project. Wyatt has partnered with CLP since 2014, assisting up to 10 people each year to access the funds and supports they may need to successfully turn their business idea into a reality.
Dr Wyatt planted trees under which he would never sit. He took the long view as he gave his life in service to the foundation of our education and healthcare systems here in South Australia. Dr Wyatt’s ubiquitous influence extended to natural science, animal welfare, mental health, the world of business and much more. His noted modesty stands in stark contrast to the significance and longevity of his achievements.

Dr Wyatt was intensely interested in the human condition and sought, through his many pursuits, to improve the life and circumstances of people. Over 130 years, generations of governors of The Wyatt Trust have sought to give effect to his desire to provide an enduring way to South Australians in poor or reduced circumstances.

GRANT MAKING

The core activity, and the primary means through which Wyatt seeks to enhance the capacity and improve the quality of life for South Australians in need, is through the making of grants to individuals and households. The grant making framework provides for grants ranging from those which respond to immediate need through to those which develop skills and personal capacity, with a focus on measurable outcomes.

SMALL GRANTS

The Small Grants Program is designed to enable people in immediate need to be assisted through the provision of basic necessities and help in gaining or sustaining housing. In the past year, 1,221 individuals and households were assisted in this way. Social and support workers from more than 120 community and government agencies made applications on behalf of their clients through Wyatt’s online grant system and these were assessed by Wyatt staff.

PARTNER GRANTS

In 2016/2017 Wyatt’s Partner Grants Program engaged 81 partner groups assisting South Australians experiencing financial hardship across the priority areas of:

- Education Retention and Reengagement
- Employment Pathways
- Housing Support
- Financial Wellbeing.

Partner groups include a wide range of community organisations, with the recipient groups including educationally disengaged young people, students in need of extra support, students with disabilities, people who are unemployed, in housing crisis or financial need. Grants in this area are designed to develop capacity and assist people to gain a measure of control in their lives.

CATALYSTS FOR CHANGE

At Wyatt we see ourselves not simply as grant makers but as part of the wider social system that seeks to enhance the lives of people in need through practical support, personal advocacy and the pursuit of solutions to entrenched disadvantage. We are committed to working with others and the following are some of the ways we do so:

COLLECTIVE IMPACT INITIATIVES

Wyatt Grants Managers are engaged on a continuing basis in leadership and working groups for Collective Impact initiatives across the State. These include the Impact Inner North and Together in the North and Together in the South initiatives.

GROWING PHILANTHROPY

Wyatt is committed to fostering the development of philanthropy in South Australia and works closely with Philanthropy Australia and other trusts and foundations in that quest. This includes the hosting of roundtables and visiting experts in philanthropy, and facilitating training sessions.

SOCIAL IMPACT INVESTMENT

In Australia and globally there is strong and growing interest in investments that produce both a financial and social return with Social Impact Bonds being released in many places. Wyatt has played a significant role in fostering the development of this type of investment in South Australia.

PRACTICE-BASED RESEARCH

Wyatt is committed to learning through research grounded in practice. During the course of the year Wyatt has been involved in funding two multi-year projects, through the South Australian Health and Medical Research Institute, one focussing on the resilience and wellbeing of young people on the fringes of the school system and the other relating to the social determinants impacting diabetes prevention and management in Aboriginal communities.
“THE STICKING TOGETHER PROJECT PLACED YOUNG PEOPLE AT THE HEART OF DESIGNING THE COACHING SUPPORT THEY NEED TO SUCCESSFULLY GAIN AND MAINTAIN WORK. THAT MADE SUCH A DIFFERENCE TO THE EMPLOYMENT RESULTS WE’RE SEEING NOW”

Andrew Reilly, Head of Development, SYC.
A SPIRIT OF PARTNERSHIP UNDERPINS ALL THAT WE DO AT WYATT. WE KNOW THAT WE DO SO MUCH MORE TOGETHER THAN WE CAN EVER DO ALONE, AND EVERY DAY WE HAVE THE PRIVILEGE OF WORKING WITH OTHERS TO BRING ABOUT CHANGE THAT WILL BRING HOPE AND OPPORTUNITY TO THOSE IN OUR COMMUNITY WHO ARE IN MOST NEED.

"I got given a second chance. I knew this was time to try my hardest and get back on track and I did just that. I stopped smoking, I tried harder in school and my grades (WENT) up; my relationship with my mum and dad picked up."

Wyatt-funded participant in the Ice Factor Program.

OUR PARTNERS YEAR ENDING 30 JUNE 2017

A spirit of partnership underpins all that we do at Wyatt. We know that we do so much more together than we can ever do alone, and every day we have the privilege of working with others to bring about change that will bring hope and opportunity to those in our community who are in most need.

**IMAGE:** Communities across South Australia have embraced the collective impact model and are working together to achieve measurable change on complex issues affecting their regions. Wyatt is actively involved in a number of Collective Impact groups across the State, including Impact Inner North (pictured), Together in the North and Together in the South.
Dr William Wyatt and Mrs Julia Wyatt travelled from Plymouth, UK, arriving in Holdfast Bay, South Australia in February 1837.

During his life in Adelaide, Dr Wyatt held a significant number of official positions. He set up his home first in Grenfell Street and later at Kurralta, Burnside. His son, William, the only one of his five children to survive childhood, died in 1872 aged 34. Dr Wyatt’s wealth was derived from his purchase of land in the city and elsewhere in March 1837.

In 1881 he wrote his Will, setting up his Trust and naming the first Governors - prominent Adelaide businessmen. He died in June 1886 and the first meeting of the Wyatt Governors was held soon after. On 15 July 1886 the first grant of five pounds was paid to J.W.B., a retired lawyer.

The Wyatt Trust is now a significant fund, the benefit of which is provided to improve opportunity and quality of life for South Australians who experience financial hardship.

‘An Enduring Gift’ is an inspiring documentary created by Planet Earth Films highlighting the life and work of Dr Wyatt and his Trust. To view the documentary visit www.wyatt.org.au.
